

getxBptr

amici::Solver::setupAMIB

```
graph RL; A[amici::Solver::setupAMIB] --> B[getxBptr];
```

The diagram illustrates a function call. A blue arrow points from the box labeled 'amici::Solver::setupAMIB' on the right to the box labeled 'getxBptr' on the left. The 'getxBptr' box has a light gray background, while the 'amici::Solver::setupAMIB' box has a white background. Both boxes have a black border.
